FLOW CONTROL AND AUTOMATION SPECIALISTS

Valves: Industrial, HVAC, Water and Wastewater

Keystone Butterfly Valves
Resilient seated valves: 1" - 48",
150, 175, 250 PSI and vacuum
service. Bubble-tight shut off.
Industrial, HVAC, municipal, and
chemical valves.

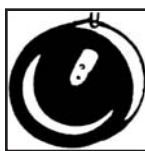

Garlock PTFE / PVDF Lines
Butterfly valves
2" - 42"
150PSIG rating
Corrosive and abrasive medias

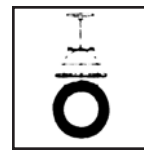

Keystone Extended Service (HP) Valves
ANSI 150 - 285 PSI rated
ANSI 300 - 740 PSI rated
Teflon, resilient, steam service,
metal and fire-safe seats API-607

Homestead Eccentric Plug Valves
2" - 12"
Resilient coated plug
Two- and three-way 150/250 PSI
rated

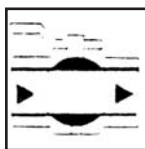

Keystone / Prince Check Valves
2" - 48"
Wafer swing check
Gravity, spring loaded, lever, and
weight

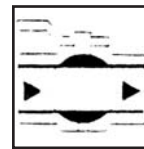

Orbinox Knife Gate Valves
2" - 24"
Metal and resilient seats
Slurry, hopper, isolation
Ductile iron and stainless steel

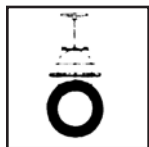

K-Flo | SPX AWWA Valves
Butterfly valves size: #"-120"
Flanged and mechanical joint
AWWA C504 class 150B | 250B

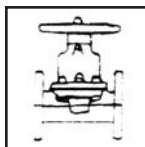

SVF Industrial Ball Valves
¼" - 12"
Threaded, socket weld, flanged
Pressure Rating 150-5000#
Firesafe, tank, sanitary valves

Burkert Solenoid and Control Valves
2-, 3-, and 4-way solenoid valves
Sensors - pressure, flow
Temperature, level
Angle-seated-Y-pattern

Hilton Knife Gate Valves
2" - 72"
Specialty valves for control,
Diverter, ported, stainless, hastel-
loy, and titanium

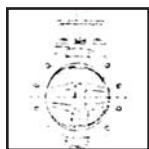

Sanitary Valves and Fittings
3A-approved ball valves
Butterfly and check valves
Clamp, bevel, and butt weld fit-
tings

Instrument Valves
Ball, plug, check, needle
1/8" - 2"
1000 - 6000 PSIG
Brass and stainless steel, two fer-
rule

Severe Duty/Critical Shut-Off Valves

Tricentric Triple
3" - 24" offset valves
Inherently firesafe / zero leakage
Steam service
ANSI 150-300 carbon and stain-
less

Larox Slurry Control Valves
1"-40"
Manual and control valves
Press: 0-1500 PSI, temp to 320 F
Slurries, scaling, powders

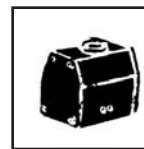

Keystone Wear Resistance Valves
2" - 24"
Wear resistance materials
28% Chromium iron, ceramic

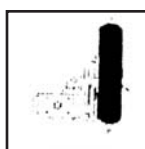

Actuators and Controls: Rotary, Multi-Turn, and Linear Valve Automation

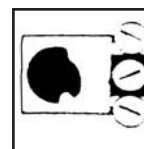

Electric Actuators
Quarter and multi-turn
300-5 million inch-lbs.
Integral manual override
Explosion-proof, submersible
modulating speed control

Pneumatic Quarter Turn and Linear Actuators
100-2 million inch-lbs.
Double acting
Spring return
Air fail safe systems
Manual override

Hydraulic Local or Remote
Activation
22,000 - 3.5 million inch-lbs.
1500 PSIG operating pressure
Pipeline break detection systems
Manual override

Pneumatic and Electric Controls
PMV positioners: Split range,
reversible, electro-pneumatic
Smart positioners
Limit switches: 0-90 degrees,
SPDT, DPDT

WEIDNER & ASSOCIATES

Severe Duty: Critical Service Valves

- Larox Pinch Valves
- Orbe Knife Gates
- Tricentric Metal Seated
- SVF Ball Valves
- Garlock Lined Butterfly's
- Keystone HP Butterfly's
- Keystone Slurry Control
- Homestead Plug Valves
- Lined Ball/Check Valves
- Instrument Valves
- Burkert Control Valves and Sensors
- Sanitary Valves
- Pressure Reducing Valves
- Safety Relief Valves
- Slurry Control
- Slurry Isolation
- Steam - O-Leakage
- Steam - Food Grade
- Caustic - Food Grade
- High Pressure - Steam
- Slurry Flow Control
- Two- and Three-Way Eccentric
- Caustic or Chemicals
- Ball, Plug, Check
- Solenoid, Process, Sensors
- Ball, Butterfly, Diaphragm
- Pressure, Temperature
- Flanged and Threaded

Automation and Controls

- QTRCO Pneumatic Actuators
- Keystone Electric / Pneumatic
- Andco Electric Actuators
- DynaTorque Gear Operators
- Burkert Control Sensors
- Heat Exchangers
- Stainless R&P
- 300 - 3 Million inlb Torque
- Lineary and Rotary
- CI and Stainless Gear Ops
- Flow, Level, Temp, Press
- Shell and Tube - CS, CNI, SS

About Weidner & Associates

Since 1974, Weidner & Associates (W&A) has offered products from only the highest quality manufacturers of instrumentation and controls, safety products, and valves to a wide range of industries. Serving primarily customers in the Intermountain West, W&A provides solutions for mining personnel, firefighters, and engineers.

Ask about our process instrumentation and safety products:

- E&H Process Instrumentation: Level, Flow, Pressure, Analysis, Temperature
- MSA Safety Products: SCBAs, Portable Air Systems, Gas Monitors
